L-3 Security & Detection Systems Products Now Available Through GSA Advantage

WOBURN, Mass., October 1, 2013 – L-3 Security & Detection Systems (SDS) today announced that its security screening solutions for people, packages and cargo are now available through [GSA Advantage](#). GSA Advantage is a government purchasing website run by the General Services Administration.

L-3 SDS products are used in a variety of checkpoint and facility security applications by the federal government. In addition to a full range of baggage and parcel X-ray systems, also available on GSA Advantage are the widely deployed Provision[®] people scanner for secure facility checkpoints and the unique CX-Mobile[™] G3 for high-energy mobile cargo and vehicle X-ray inspection.

“We are very pleased to be listed on the GSA Advantage website as this will allow government agencies quick access to pricing, product and distributor information,” said Thomas M. Ripp, president of L-3 Security & Detection Systems.

The mission of GSA Advantage is to leverage government buying power. It streamlines purchasing by verifying agencies are getting GSA-negotiated prices from GSA-approved sources.

About L-3 Security & Detection Systems

With more than 50,000 systems deployed and supported around the globe, L-3 Security & Detection Systems (SDS) is a leading supplier of security screening solutions. For more than 30 years, L-3 SDS has developed and manufactured cutting-edge products using advanced technologies that include 3-D computed tomography; automated, conventional and high-energy X-ray; radiation detection; active millimeter wave imaging; metal detection; and energetic trace explosives detection.

L-3 SDS solutions are used by the aviation and transportation industries, regulatory and customs authorities, government and law enforcement agencies, and commercial and other secure facilities. Applications include the screening of people, vehicles, baggage, cargo and packages for explosives, firearms, drugs, contraband and corporate assets. To learn more about L-3 SDS, please visit the company's website at www.L-3com.com/sds.

About L-3 Communications

Headquartered in New York City, L-3 employs approximately 51,000 people worldwide and is a prime contractor in C³ISR (Command, Control, Communications, Intelligence, Surveillance and Reconnaissance) systems, platform and logistics solutions, and national security solutions. L-3 is also a leading provider of a broad range of electronic systems used on military and commercial platforms. The company reported 2012 sales of \$13.1 billion.
