### **L3 Security & Detection Systems to Demonstrate Latest Security Software at World Customs Organization's IT Conference & Exhibition**

WOBURN, Mass., June 6, 2018 – L3 Security & Detection Systems (L3 SDS) announced today that it will demonstrate its latest CV 2™ software solution in Booths 6 and 7 at the World Customs Organization's (WCO) IT Conference & Exhibition being held June 6–8, 2018, at the Westin Lima Hotel & Convention Center in Lima, Peru.

CV 2 is an intelligent platform that integrates inspection technologies, manifest and advance information databases, and security systems at points of entry to transform customs enforcement and revenue collection operations. CV 2 allows integration of existing technologies and databases, regardless of manufacturer, into a seamless common operating picture. It is available across multiple industries, including ports and borders, aviation and rail.

“Our CV 2 software platform enables us to provide our customers with an industry-leading, integrated software/hardware solution that optimizes their productivity and operating efficiencies,” said Pak Chin, President of L3's Security & Detection Systems sector.

The WCO IT event brings together interested parties from around the globe, including commercial providers, government officials and customs executives to learn more about industry requirements and hear firsthand about emerging trends.

“L3 SDS is the platinum sponsor this year,” said Mr. Chin. “We will use this opportunity to demonstrate our unique security solutions to the worldwide WCO gathering of thought leaders.”

L3 is trusted by customers around the globe for its leading-edge technologies, its strength as an integrator, and its reputation as a premier provider of advanced systems and solutions.

**About L3 Security & Detection Systems**

With systems deployed and supported around the globe, L3 Security & Detection Systems (L3 SDS) is a leading supplier of security screening solutions. For more than 30 years, L3 SDS has developed and manufactured cutting-edge products using advanced technologies. L3 SDS solutions are used by the aviation industry, ports and border crossings, and critical infrastructure facilities. Applications include the screening of people, vehicles, baggage, cargo and packages for explosives, firearms, drugs, contraband and corporate assets.
